

Final Literature Review Plan

Overview

The purpose of this assignment is to move from an initial plan to a more refined and evidence-informed plan.

Your goal is to demonstrate that:

- Your search strategy is realistic and effective
- Your inclusion/exclusion criteria are clear and usable
- Your approach reflects what you have learned from actual search results
- You are beginning to identify patterns across studies

This version should show growth and refinement based on your search results and evaluation process. This assignment is:

- A **revised and improved version** of your earlier work
- Based on **evidence from your search and evaluation process**

Strong submissions demonstrate **clear improvement, refinement, and alignment**

Instructions

Submit a revised version of your literature review plan (approximately 2–3 pages).

1. Topic

- Briefly restate your topic (1–2 sentences).
- Revise if needed based on your search experience

2. Research Question(s) & Purpose

- Briefly restate your core research question and purpose (1–2 sentences).
- Any additional sub-research questions
- Revise as needed based on:
 - search results
 - feasibility

- clarity

3. Selected Review Methodology

- Identify the review methodology you have selected:
- Provide a brief description of this methodology in your own words.
- Confirm or revise your choice based on your search experience

4. Search Strategy

Use your Search Results & Source Evaluation Matrix to support your revisions in this section.

- Describe how you will search for relevant literature.
- Include:
 - Refined search key terms and phrases
 - Key changes you made (and why)
 - What worked and what did NOT work in your search process
 - How you will continue refining your search

5. Databases and Sources

- Identify the databases and sources you are using.
- Briefly explain why these sources are appropriate for your topic
- Note any changes you made based on your search experience

6. Inclusion and Exclusion Criteria

- Clearly define your criteria
- Revise based on what you encountered during screening
- Include:
 - Publication date range/Timeframe
 - Type of sources/publication (e.g., peer-reviewed articles)
 - Population, setting, or context
 - Relevance to your research question

Your criteria should help you focus your review and avoid including irrelevant sources

7. Emerging Patterns

Describe **1–2 early patterns** you are noticing across your sources.

For example:

- Population trends
- Methods used
- Outcomes studied
- Theoretical perspectives

Briefly explain how these patterns appear across multiple sources

8. Reflection on Revision

Reflect on your learning from this process:

- What changed in your search strategy or criteria?
- What challenges did you encounter?
- What helped you refine your approach?

Strong reflections explain how your thinking changed based on your search process.

Submission Requirements

- Submit as a Word or PDF file
- Name the File Using: Final Literature Review Plan_SemYR_Your LastName_Your FirstName

Evaluation Criteria

Your assignment will be evaluated based on:

- Clarity and feasibility of the search strategy
- Appropriateness of databases and sources
- Strength and clarity of inclusion/exclusion criteria
- Evidence of thoughtful revision and reflection
- Overall organization and clarity of writing

Rubric Table (10 pts)

Criteria	Excellent 2.5	Proficient 2	Developing 1-1.5	Very Limited / Incomplete 0-0.5	Points
----------	------------------	-----------------	---------------------	---------------------------------------	--------

Search Log	Multiple searches documented; clear refinement and thoughtful notes	Searches documented with some explanation	Limited searches or minimal explanation	Missing, very limited, or no meaningful attempt	/2.5
Screening Decisions	Clear Keep/Maybe/Exclude decisions; strong reasoning using criteria	Decisions provided; some reasoning but limited clarity	Decisions unclear, inconsistent, or weak reasoning	Missing decisions or no meaningful justification	/2.5
Source Set & Evaluation	Robust set (~10+ sources); well-developed evaluation notes	Adequate set of sources; some evaluation detail (may be slightly below expected number)	Fewer than expected sources and/or limited evaluation	Very few sources or little to no evaluation	/2.5
Criteria & Method Alignment	Clearly connects decisions to criteria and review method	Some connection present	Limited or unclear connection	No clear connection to criteria or method	/1.5
Clarity & Organization	Well-organized; easy to follow	Generally clear; minor issues	Somewhat difficult to follow	Disorganized or incomplete	/1
Total					/10

Points within each category may vary depending on the completeness and quality of your work.
